

## Software Developer (C++/JS/Full Stack) (d/f/m)

### Your Tasks

- ▶ Development and maintenance of scientific software for visualizing biological sequence data
- ▶ Work both customer-focused and in scientific collaborations
- ▶ Writing automated tests and CI pipelines
- ▶ Focus on reliability, efficiency and user-friendliness

### Your Qualifications and skills

- ▶ University degree in software development, software engineering, bioinformatics, or a similar discipline
- ▶ Experience with C++ programming and/or Javascript/Typescript/Vue.js
- ▶ Experience with full stack development is advantageous
- ▶ Experience with REST APIs is advantageous
- ▶ Knowledge of data visualization is advantageous
- ▶ Software development in a team using version control (i.e. git), CI/CD testing and issue tracking
- ▶ Experience with Linux shell (bash, zsh, fish, screen etc.), commands and scripting
- ▶ Knowledge of genetics and/or plant breeding are advantageous
- ▶ Fluent in English
- ▶ Strong problem solving skills
- ▶ Proactive team player
- ▶ Capable of working autonomously

### We offer

- ▶ Full-time position with unlimited contract
- ▶ Working from the office in Tübingen (mobile working partially possible)
- ▶ Flexible working hours
- ▶ Ergonomic office furniture and equipment
- ▶ Continuous training, education and in-house knowledge transfer
- ▶ Working in an innovative, dynamic and international company
- ▶ Healthy working environment with fresh fruit, coffee, tea and water free of charge

Computomics GmbH  
Eisenbahnstr. 1  
D - 72072 Tübingen

## Our Mission

We provide bioinformatics services for the analysis of next-generation sequencing data of DNA and RNA, from experimental design up to complex interpretations.

We focus on agricultural biotech, breeding and plant protection companies. Our services are used by researchers, by bioinformaticians and by quality managers.

## Our Unique Qualities

- ▶ We use validated methods and quality controls at every step
- ▶ Our results are reproducible and accompanied by a detailed report
- ▶ We are independent of sequencing providers, technologies and commercial software companies
- ▶ Our analyses are customized to client needs with proprietary algorithms and award-winning open source tools
- ▶ We guarantee the security of client data and handle IP contamination

## Our Vision

We bring sustainable economic success to our clients by enabling them to produce stable, added-value crops, thus contributing to resource-efficient agriculture that can feed the planet.

## Our Values

- ▶ Passion for our products and for our work
- ▶ Amicable, collaborative, honest relationships with our clients and with each other
- ▶ Respect towards everyone and towards the environment
- ▶ Efficiency and the desire to improve

## Working for Computomics

A+ employees deserve an A+ treatment. It takes a great employer to hire great employees, so Computomics offers the opportunity to work in an entrepreneurial, open, and intellectually challenging culture. We focus on quality and professionalism and aim to have amicable relationships with our clients, our partners and among ourselves. We also offer an attractive compensation package.

We prefer ownership over hierarchy, and we facilitate learning and venturing. We work with bright, talented people in a challenging, diverse, and rapidly evolving domain.

At Computomics, we foster the combination of innovation and focus; we combine accountability with responsibility, and encourage initiative, teamwork and respectful, candid and open communication.

As we grow our organization, we want you to grow with us; you'll find opportunities for self-development. Working for Computomics is a great way for you to become part of a company where you will make a difference.

## Quick Company Overview

Founded	2012
Origins	Max Planck Institute for Developmental Biology and University of Tübingen Spin-off
Managing Director	Dr. Sebastian J. Schultheiss
Solution	Custom data analysis for crop breeders, bioinformaticians and quality controllers in plant biotech, breeding and crop protection
USP	Machine learning technology behind all future crops
Headquarters	Tübingen, Germany
